

Results-Based Accountability Committee

April 8, 2019

150 Frank Ogawa Plaza
4th Floor, Conference Room 1
Oakland, CA

Present:

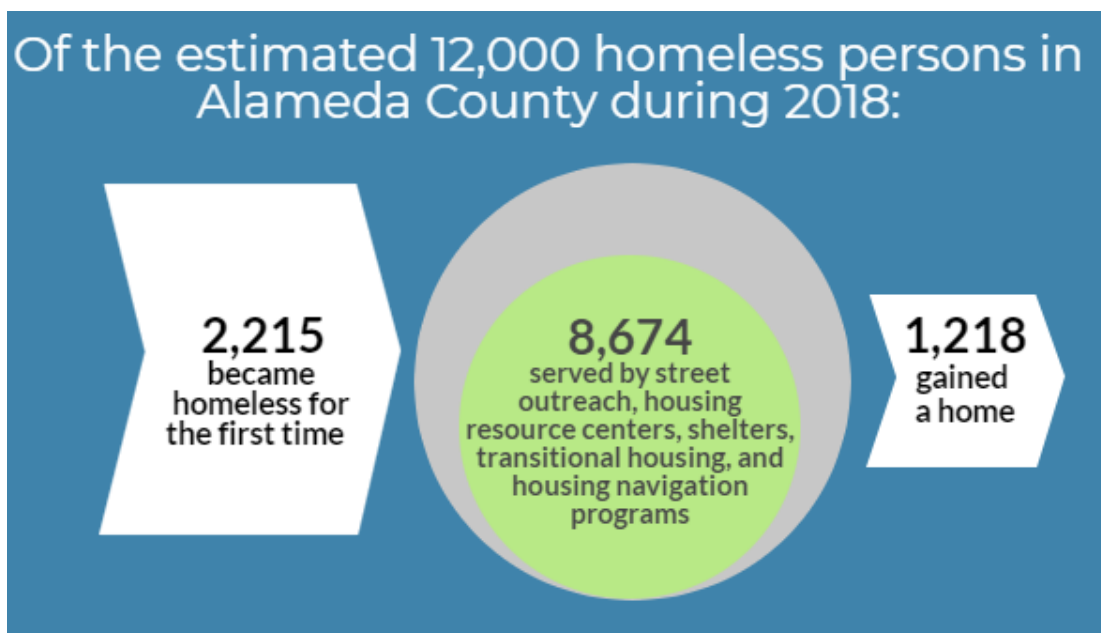

1. Welcome and Introductions

2. Announcements and Updates

- Next Meeting: 2-4 PM on Monday May 13 at Conference Room 1, 4th Floor, 150 Frank Ogawa Plaza, Oakland.
- Public Participation Policy: More public participation at EveryOne Home Committees!
- Update on HMIS TA
- Leadership Board April 25th from 1-4 at San Leandro Public Library
- Community Meeting is April 30th at California Endowment in Oakland
- HMIS Update
 - HMIS Training calendar is available at: <http://www.acgov.org/cda/hcd/hmis/training-calendar.htm>
 - To register for training, or to request new projects or agency onboarding, email hmissupport@acgov.org

3. Public Facing Dashboards

4.A Annual infographic summarizing previous year:

Of the estimated 12,000 homeless people in Alameda County during 2018:

2,215 became homeless for the first time

8,674 were served by street outreach, housing resource centers, emergency shelters, transitional housing, and housing navigation programs

1,218 gained a permanent home

About 2 people became homeless for every 1 person who gained a permanent home.

Data Sources

The Department of Housing and Urban Development (HUD) Fiscal Year 2018 began 10/1/2017 and ended 9/30/2018.

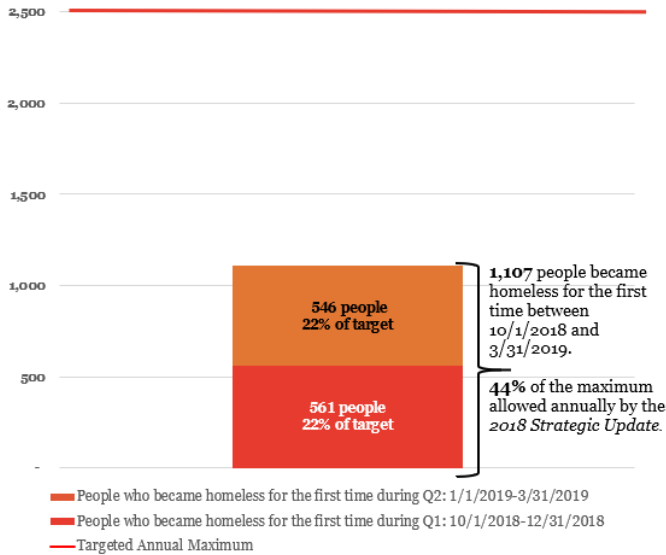

(1) The number of people who "**became homeless for the first time**" is calculated using [HUD System Performance Measure 5: Number of Persons who Became Homeless for the First Time](#) between 10/1/2017 and 9/30/2018.

(2) The number of "**homeless people served**" is an un-duplicated count of individuals on the Coordinated Entry By-Name List, and enrollments in Street Outreach, Emergency Shelter, Housing Navigation, and Transitional Housing between 10/1/2017 and 9/30/2018.

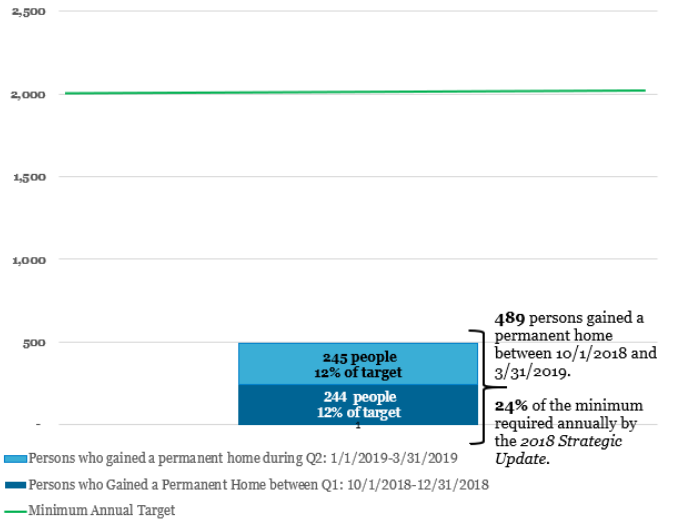

(3) The number of "**homeless people gained a home**" is calculated using [HUD System Performance Measure 7: Successful Placement in Permanent Housing Destinations, metric 7b.1](#) between 10/1/2017 and 9/30/2018.

4.B Quarterly Dashboard will track system performance on two targets: first time homeless and exits to permanent housing:

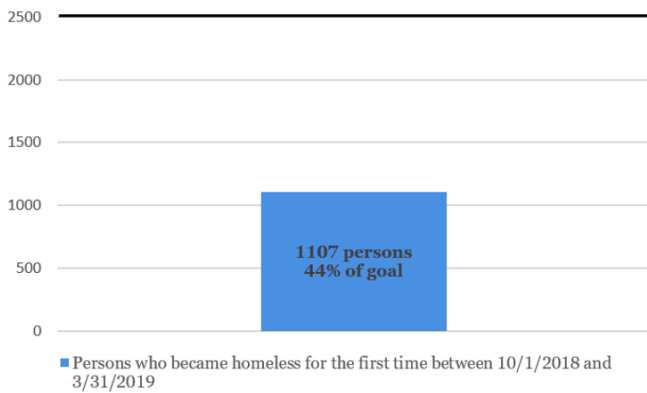

Target: Fewer than 2,500 People Become Homeless for the First Time in FY2019

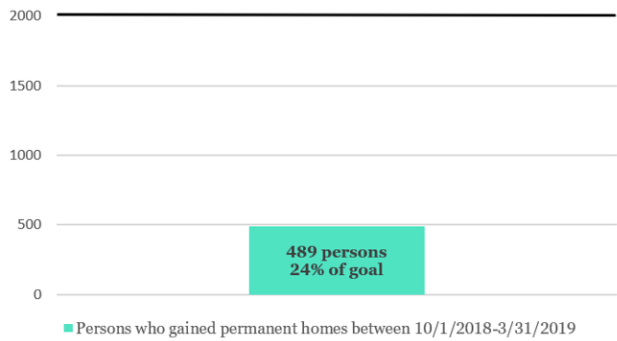

Target: More than 2,000 Homeless People Gain a Permanent Home in FY2019

Goal: Fewer Than 2,500 Persons Become Homeless For The First Time During 2019

Goal: House 2,000 Or More Homeless People During 2019

5. Turn the Curve/ System Performance Measures

- a. Length of Time Homeless: Received 7 of 14 points on the most recent NOFA (using 2017 #s)
- b. Story behind the curve from March RBA Committee:
 - i. Social context low incomes and low affordability
 - ii. Giving shelter more resources to move people into permanent housing
 - iii. Working with higher needs people- could be an indicator that we're doing what we said we're doing. To know, we would want to look at outcomes! Do we see an increase in exits to permanent housing from ES and TH?
 - iv. We don't do data collection on housing problem solving and prevention that would be useful to understanding what's happening.
 - v. Wondering how different these data points would look if we used the assessment date of first homelessness (measure 1b)
 - vi. Show the record level distribution (using Trevor's new, cool dashboard)

Measure 1A: Length of Time Homeless
