Guide to Home Stretch Disability Verification

Instructions: Use this information as a guide when documenting disability for a Home Stretch referral. Include appropriate disability verification to enable matching to specific housing opportunities.

According to HUD guidelines, a person shall be considered to have a disabling condition if such a person has a diagnosable:

- Substance use disorder; AND/OR
- Serious mental illness; AND/OR
- Development disability (as defined in Section 102 of the Developmental Disabilities Assistance Bill of Rights Act of 2000, (42 U.S.C. 15002); AND/OR
- Post-traumatic stress disorder (PTSD); AND/OR
- Cognitive impairments resulting from brain injury; AND/OR
- Chronic physical illness or disability (e.g. HIV/AIDS)

And that condition meets all of the criteria below:

- Is expected to be of long-continued and indefinite duration; AND
- Substantially impedes the person’s ability to live independently; AND
- Is of such a nature that the ability to live independently could be improved by more suitable housing conditions.

There are specific housing opportunities with set-asides or preferences for people with the following health conditions: HIV/AIDS, serious mental illness, developmental disabilities, and substance use conditions. Please have a licensed health care professional complete the Home Stretch Disability Verification to be considered for these specific housing opportunities.

If a licensed health care professional CANNOT complete the disability verification, then disability can also be verified by providing one of the documents listed below. However, it is strongly recommended that the Home Stretch Disability Verification be completed if possible.

Disability can also be verified by providing one of the documents listed below:

- Written verification of disability from the Social Security Administration, OR
- Copy of a disability check (e.g., Social Security Disability Insurance check or Veteran’s Disability Compensation)
