1. Public Comment
 - No comments from the public
2. Prioritization Policy for COVID-19 Overview
 - There are new resources available because of the COVID-19 Pandemic, however there has been a delay in housing some individuals because there is no specific policy around CE prioritization that is pandemic specific. The special meeting has been called in order to bring the recommendations for temporary amendments to the CE policy for the committee to vote on. \
 - The main goal is to be able to utilize the large amount of temporary COVID resources that are available, to avoid the individuals living in hotel shelters having to exit back out onto the street.
 - Once the policy changes have been approved by the committee the timeline is still unclear how soon the policy changes will be implemented, however Abode Services is currently working on housing individuals.
3. Action Items
 - CE Prioritization Amendment for COVID-19
 - Presentation of Recommendation
 - The recommendation to the committee is to approve the policy as written.
