      iv. Chelsea Andrews (EOH) raised that it can be challenging if there is not consistency among members to vote on important issues and that the Leadership Board might not reflect the individuals or expertise that was originally desired.
      v. Moe Wright (Chair) suggested that someone should be named early on as an alternate as an option.
      vi. The board took a poll that resulted with 55% voting that all board members should be able to designate a proxy and 45% for proposed that only County and City Board members should designate a proxy.

   ii. Chelsea Andrews (Executive Director) clarified that there is an expectation that individuals understand and appreciate the collective impact model and that this collective impact mission is to end homelessness.
   iii. Kerry Abbott (HCSA) also suggested making it clear about what it means to agree to the collective impact mission before participating in the Leadership Board and the language should be clear what the mission of the initiative is.
   iv. Peter Radu (City of Berkeley) shared that he feels it is premature to add “successful implementation” in the language since he was under the impression it was explicitly referencing the Home Together plan.
   v. Chelsea Andrews (Executive Director) responded that the language is not referencing to the adoption of Home Together plan but is a recommendation to adopt the general race equity design approach.
   vi. Moe Wright (Chair) added that this code of conduct will endure beyond the various plans. Since the board will adopt various plans as it moves along, the language should be show that it is more of a process.
   vii. Kerry Abbott (HCSA) asked if there could there be benefit in revisiting the code of conduct with the new Leadership Board once it is seated.
      1. Moe Wright (Chair) responded that we wanted to have something available for new members, so they know what their expectations are.
   viii. Moe Wright (Chair) suggested rewording the language to make it more universal.

   iii. Susan Shelton (at large representative) added that she would not leave it open ended and wanted a stronger language, so people are clear that they are bringing themselves up to speed or at the same level of expectations.
iv. Chelsea Andrews (EOH) added that at point the board should discuss if there are mandatory training for serving such as Diversity and Equity Inclusion training, HMIS training, conflicts of interest, etc.

   i. Darin Lounds (HCEB) asked how is the lived experience and expertise measured?
      1. Chelsea Andrews (Executive Director) answered anyone who presents and indicates that they've experience housing instability is measure. The term expertise and experience are interchangeable and includes people who have experience homelessness in the process.
   ii. Kerry Abbott (HCSA) raised a question about the non-conflicted member piece. There was someone on the NOFO committee who had recent employment experience at one of the provider agencies but that wasn’t current but, there was perception that could impact their input.
      1. Chelsea Andrews (EOH) answered that it was not a directed conflict, but it could be perceived as a conflict. Those members did not score the applications from the agencies they used to work for.
