* The NOFO Committee has requested that City of Oakland amend the Navigate to Housing proposal from a \$7,039,200.00 TH/RRH project to an RRH project with a reduced budget of \$1,426,019.01 in order to fit within the maximum funding allocation for Alameda CoC.

** Project 6 falls outside the maximum funding allocation but will still be included in the application submitted to HUD as coverage for the unlikely event that any of the projects on the list do not pass HUD's threshold review. This applicant decided to reduce their project budget.
