## Committee Purpose

The purpose of the System Impact Committee is to monitor progress against the community's [strategic plan \(Home Together\)](#), including regular review of system-level and provider performance to support more rapid identification of emerging trends and needed changes to policy and programming. The committee will also be responsible for monitoring actual system performance against assumptions used in the Home Together system modeling to support updates to the plan as needed.

You can learn more about the Committee's Purpose [here](#).

## Meeting Purpose / Overview

The purpose of today's meeting is to review progress on the 2025 SIC Work Plan. Building on the completed updates to the performance measures, Homebase will present a provider report card version of these measures for committee discussion. The committee will also begin 2026 work planning by identifying areas of focus and priorities for the next calendar year. This will

ensure continuity from the 2025 workstreams while shaping the committee's agenda moving forward.
