## Committee Purpose

The purpose of the System Impact Committee is to monitor progress against the community's [strategic plan \(Home Together\)](#), including regular review of system-level and provider performance to support more rapid identification of emerging trends and needed changes to policy and programming. The committee will also be responsible for monitoring actual system performance against assumptions used in the Home Together system modeling to support updates to the plan as needed.

## Meeting Purpose / Overview

The purpose of today's meeting is to review the work plan for 2026. The HMIS lead team will help us frame the conversation by first giving information on data points included in Annual Performance Reports to help us build out our provider report cards. The discussion will ensure continuity and strategic alignment across SIC efforts moving forward.
